A GREAT CITY DIRECTORY ORGANIZATION SERVING

3,651,320 People in the most densely populated area in America

Annually, with a trained organization within these five states, serving one hundred and forty-one communities, each street and building is thoroughly canvassed for new names, changes and verification of prior information, after which by trained investigators, sections are again recanvassed to keep our name takers keyed up to a high degree of accuracy.

Through the process of sorting, compilation and still greater refining for accuracy, each name is handled twelve times as it becomes a part of the five departments when combined and printed into city directories, renders a service unsurpassed for those who know that without knowledge, activities become wasteful, confused and subject to duplication.

The PRICE & LEE COMPANY

Over 75 Years Making Good Directories Better

NEW HAVEN SPRINGFIELD HARTFORD NEWARK

The Greater Hartford Directory

In presenting this Edition of the Hartford City Directory, we again pay our tribute to those who by diligent effort for over three generations have maintained an indispensable service without interruption.

Starting with the first edition in 1828 with 1,640 names, covering a population of 9,789 (Federal Census 1830); following with another in 1838, there has been an unbroken line of annual directories to this current issue with 150,150 names, covering a population of 186,300 (Federal Census 1950).

For over a century this unbroken line of city directories has mirrored the city in each step of its progress and recorded the activities of its citizens so that many names that are making Hartford what it is today can be traced back to ancestors who were equally as important in their time.

A complete file of directories covering this period is indispensable to those who enjoy tracing those who laid the foundations for existing families. Nothing can equal city directories for this purpose when they are built solely for rendering each year as complete and accurate service as possible and, if kept, will add one more annual record of what Hartford is at this period; and it is with this objective that this book is presented with these outstanding features.

Standardization

This book, basically, has been made to conform to standardization of city directories, as suggested by the Department of Commerce in Washington and adopted by the Association of North American Directory Publishers, with the additional features of a more comprehensive governmental and civic department together with half-tone photographs of our leading citizens. This is a valuable feature of identification and in future years will perpetuate the memory of those who are making this community what it is today.

Governmental and Civic Directory

As the capital city, this department will give more general information than is usually found in city directories. Federal, State, County and Municipal institutions are represented by personnel.

Buyer's Directory

Likened to the development of our modern cities, the advertisements in this department have been zoned or classified. This is the result of standardization for simplification of use.

It reflects the professional, industrial and commercial activities in an orderly manner. Now with its simplification of use, so complete and diversified in its service it will open local channels for distribution and trade, and as a whole, visualizes as no other medium, the sturdy foundation upon which rests the Hartford Suburban of today.

Alphabetical Directory

Names and occupations of those over eighteen years of age; also, many of those who are identified with business activities and reside elsewhere. When married, wife's name appears in parentheses.

Names and locations of firms, corporations and institutions.

Names appearing in large display type are paid-for listings.

This department is the foundation for all directory references, from which only additional information can be secured in other sections.

Numerical Directory

The additional avenues for service as incorporated will be continued and, as one becomes familiar with its many uses, it will become indispensable with one's activities. It is the microscope that tells "who is who" in any given area and how they can be located even to the distance from any given street corner.

This department has a neighborly friendliness and even its color (pink), gives it added warmth. Try it on your neighborhood.

Classified Directory

Within this increased area, so great diversification may be found, that one almost feels as if it were self-sustaining. To illustrate: You can find farmers raising tobacco, dairy products, vegetables, poultry, fruit, etc. As an outlet for these products there are listed 350 grocers, 75 meat markets, 9 milk dealers, 125 drug stores, 25 confectionery stores, 25 cigar stores and numerous other distributing centers. For these outlets there are 61,975 householders as found in the numerical section. Thus completing the cycle of creating and consuming.

Clear through this classified department you can trace these same channels of supply and demand for almost every business activity, which, when intelligently applied, forges a chain of inter-community activities, that strengthens by increased knowledge and recognition of every local source of supply.

Directory Library

A Free Service For All

We have at The Business Branch of the Hartford Public Library at 500 Main Street, a library of city directories, covering 1356 cities, towns and communities throughout the United States and Canada.

What your city directory can do for you locally, a directory library can do for you nationally.

Chief industries are manufacturing and insurance. Thirty insurance companies with home offices have a normal aggregate of 24,000 employees, a current annual payroll of $100 millions. In the Hartford "Labor Market" area 80,920 employees earned $409,800,000 in 1957 in 840 plants.

Trade (Retail)

Retail sales in The Hartford Capital Area in 1957 totalled over $1 billion. Effective buying income per family in 1956 was estimated at $7,500. In the past 28 years of studies of effective family buying income, Hartford has ranked first in the country for 22 years and always has been among the top ten big cities in America. With 8% of Connecticut's population, Hartford does 12.4% of its retail business. The emergence of Hartford as the dominant shopping center of Southern New England is attested by a 70% increase in retail and wholesale employment in a decade. One out of every four employed in the city, or over 30,000 people, earn their livelihood in the distributive trades.

THE HARTFORD CHAMBER OF COMMERCE

The Hartford Chamber of Commerce seeks to encourage industry and commerce throughout Metropolitan Hartford, to promote cooperation between business and government and to advance sound policies on questions affecting the financial, commercial, civic and industrial interests of the community at large.

Day in and day out this alert, aggressive organization is continually guarding Hartford's advantages, relentlessly protecting it against harmful legislation and taxes, ceaselessly promoting its industrial and business advancement, constantly guiding the forces of civic betterment and in many other ways working for the welfare, prestige and progress of Hartford.

The Chamber is engaged in highly technical work requiring experts to deal with the increasingly intricate problems relating to business and industry, national as well as local. The Board members who direct its policies are outstanding leaders in their respective business fields. They give a great deal of time and thought to this gratuitous job. Other business men particularly adapted for the assignments, serve on committees which analyze conditions, marshal the facts and submit recommendations upon which action is based. Back of this physical activity is the active interest and backing of the representative concerns in the Chamber's membership.

300 Years of Progress

Capital and largest city of Connecticut, Hartford is located at the head of navigation on the Connecticut River. According to 1958 estimate of the State Health Department population of the city is 187,300, with 423,000 in the metropolitan area. Seat of Hartford County and the Metropolitan District, the city was settled in 1635 and incorporated in 1784. Its present land area is 18.6 square miles.

Evolving from an agricultural to an industrial economy, except for growing and processing cigar leaf tobacco which has increased in importance since, Hartford was the scene of early experiments in interchangeable parts which has made the city a recognized center of precision manufactures. Almost concurrently, beginnings were made of what is now one of the largest concentrations of multiple-line insurance underwriting in America.

In 1957 manufacturers paid $409,800,000 in payroll to 80,900 employees in the Hartford labor market area. Widely-known products include aircraft and marine engines, firearms, counting devices, typewriters, dictating equipment, machine tools and gauges, parking meters, chains, silencers, brushes, sauces, cocktails, liquors, electrical devices and appliances, chucks, files, gears, presses, forgings, glass-making machinery, overseam sewing machines and turbines. Payroll to 24,000 insurance employees in 38 home or executive offices totaled $100 millions last year. Hartford companies write every known form of insurance coverage. Premium income averages $11.5 millions daily.

Retail trade in the city was estimated at $550 millions in 1957. Effective buying income per family, estimated at $7,500, ranked the city first among the 61 largest cities in the country. Commercial bank debits and clearings highest in New England outside of Boston. Postal receipts exceeded $9.5 millions in 1958. With its early beginnings in industrial and insurance underwriting development, the Hartford area has naturally become a financial center with these two industries forming the foundation of a sound economic structure.

Hartford was founded as a colony 324 years ago with the arrival from Newtown (now Cambridge, Massachusetts) of Thomas Hooker and a band of sturdy followers who located on the west bank of the Connecticut River and named this new settlement Hartford in honor of Hertford, England, the birthplace of the Rev. Samuel Stone. A trading post, "House of Hope," had been established by the Dutch, to barter with Indian tribes, however, in 1623. Thus Hartford had its beginning in trade and commerce and has continued to exert a cumulative force along these lines until today it has become the second most important center in New England.

INDUSTRIAL

Hartford's growth and business stability has been due in large measure to its great diversity of industry. Many internationally known products are manufactured and shipped from Hartford to all parts of the universe. A number of companies have the distinction of being the largest manufacturers in the world of the particular commodity each produces. The Underwood and Royal are the largest typewriter factories; the Fuller Brush, the largest brush plant. The Greater Hartford area is the home of the famous Colt Firearms Mfg. Company, Pratt & Whitney Company (precision machines and small tools), the Arrow, Hart & Hegeman Electrical Company (electrical switches); the Hanson-Whitney Industries (power transmission chains); Veeder-Root, Inc. (counting devices), and Pratt & Whitney Division, United Aircraft Corporation (engines).

INSURANCE

Hartford is one of the most important insurance centers in the world and is often referred to as "The Insurance City." Thirty-eight companies are controlled from Hartford. One is the largest multiple-line insurance organization in the world. Payroll from home-office insurance operations approximates $100 millions annually.

FINANCIAL

Hartford's banking institutions serve not only Hartford, but towns and cities within a radius of 40 miles. Hartford ranks second in New England in bank debits. Combined resources of the three largest commercial banks totalled nearly $850 millions at the end of 1957. Four resident investment brokerage firms are members of the New York Stock Exchange and a number of New York and Boston firms maintain branch offices here.

MERCANTILE

Hartford has a trading-area population of over a million and covers a radius of 50 miles. The attractive, diversified and advantageous shopping facilities which are offered here are unsurpassed in New England. It is estimated that 100,000 people visit Hartford every working day for business or social reasons. Hartford's retail business leads in this state. The three largest department stores represent 260 years of local proprietorship at or near their present locations.

Hartford's wholesale outlets serve southern New England.

AGRICULTURE

Hartford County produces three varieties of cigar-leaf tobacco—"Shade," for wrappers; Broadleaf and Havana Seed, sun-grown, for binders. Production and processing centered around Hartford accounts for an annual payroll of $15 millions, covering 4200 full-time and 20,000 seasonal employees. Dairy, fruit and vegetable farming are extensive. Beef cattle are raised for the local market. The Connecticut Marketing Authority operates a regional farmer-dealer market here handling produce, meat and frozen foods, providing 200 stalls for market-gardeners, and doing $27 millions annual business.

TRANSPORTATION

Hartford has excellent transportation facilities by railroad, water, highway and air. Good rail service is maintained into New York City, Boston and upper New England points. Busses afford excellent urban transportation. Daily truck service is maintained by many truck lines between Hartford and points within a radius of 200 miles. Two new bridges over the Connecticut River were opened late in 1957, and a third in late 1958. Hartford had the first municipally-owned airport (Brainard Field), now on a stand-by basis. Air transport (passenger and/or cargo) is now furnished by American, Eastern, Flying Tiger, Northeast, United, Slick and Trans-world Airlines out of Bradley Field, a continental state-owned airport 14 miles north. Included are through flights to western and southern points.

HOTELS—CLUBS

Hartford's hotel capacity (including a new Statler) approximates 3,000 rooms. Service clubs include Civitan, Exchange, Kiwanis, Lions, Quota, Rotary, Soroptimist, Unico and have an estimated membership of 1,000. There are fifteen golf clubs within a fifteen-mile radius of the city, plus many other business and social clubs.

EDUCATION

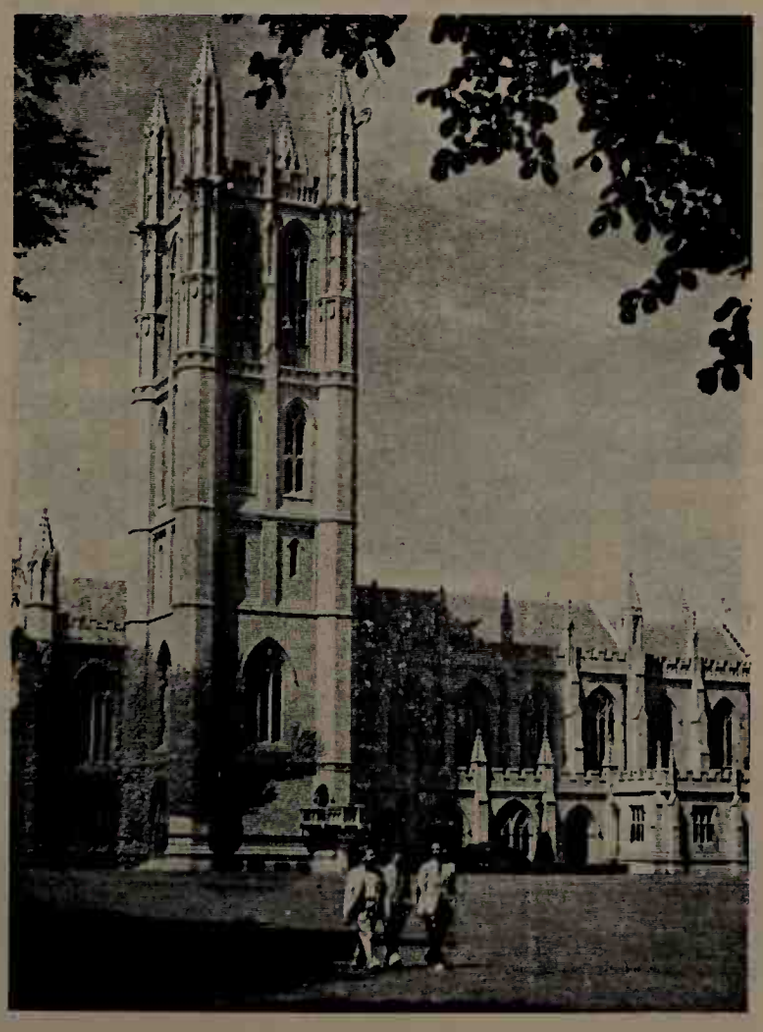
The city system comprises three high, three junior and 19 elementary schools, having an aggregate enrollment (1957-1958) of 22,000, and total teaching and administrative staffs of 980. Twelve Roman Catholic parochial schools have a combined enrollment of 6,800. Private preparatory schools in the area (some with grammar grades) are: **For Boys:** Avon Old Farms, Junior School, Kingswood, Loomis, Robinson, Watkinson, Westminster, and Suffield Academy; **For Girls:** Chaffee, Mt. St. Joseph's, Oxford, Miss Porter's and Walker.

The State operates one of its 14 vocational schools and a technical institute in Hartford. Distributive education is offered both in cooperative part-time courses for high-school seniors and in adult evening extension courses. High school and evening extension classes are conducted also in vocational agriculture and homemaking.

The University of Connecticut, 28 miles east, has a Hartford Branch offering two years of college work plus evening courses leading to advanced degrees. Also in Hartford are its Law School, College of Insurance and School of Social Work. Hartford is the home of Trinity, liberal arts college for men, founded in 1823. Also located in the city is Hillyer, a community college offering arts and sciences, engineering, business administrations and a school of electronics. Rensselaer Polytechnic Institute operates a graduate center nearby. Other private institutions of post-secondary level in or near the city are: St. Joseph College, for women; Hartford College, for women, Hartt School and College of Music; Art School of Fashion. A newly-chartered University of Hartford comprises Hillyer, Hartt College and Hartford Art School as its original components.

CHURCHES

1636, with the Rev. Thomas Hooker as pastor and Rev. Samuel Stone as teacher. Some 25 religious denominations are represented by 200 places of worship in the Capital Area, including the Protestant Episcopal and Roman Catholic cathedrals. Clergymen with charges or residence in the area number 400. Located in or near the city proper is the Hartford Seminary Foundation, inter-denominational center for religious studies; St. Thomas Seminary, Catholic diocesan clergy preparatory school; LaSalette Seminary and Novitiate for missionary clergy.



RECREATION

Hartford can boast of its recreation advantages. There are twenty-nine parks and public squares covering an acreage of 2,779. Provision is made for practically every known summer and winter sport, including golf, tennis, baseball, skating, running, bowling, bathing, dancing, etc. Hartford's position on the Connecticut River affords excellent opportunities to boating enthusiasts. There are many theatres which furnish programs of moving pictures and vaudeville. The Horace Bushnell Memorial Hall has a seating capacity of 3,300 and has been declared by no less an authority than Leopold Stokowski to be the finest of its kind in the world. A number of famous artists and orchestras are scheduled to appear here during the year. Regular concerts are scheduled by Symphony Society of Greater Hartford.

POINTS OF INTEREST

Among the many places of interest to visitors are the State Capitol, made of Connecticut marble; the State Library and Supreme Court Building; the Old State House, designed by Bulfinch, where Lafayette was entertained; State Armory; the Morgan Memorial, erected by the late J. P. Morgan in memory of his father, Junius Spencer Morgan, contains many fine tapestries and paintings; the Elizabeth Hart Jarvis Colt Gallery (adjoining Morgan Memorial; Avery Memorial, modern museum interior, old masters paintings and drawings; Wadsworth Atheneum; Hartford Public Library; site of the Charter Oak where colonial charter was secreted in Colonial days; the homes of Mark Twain, Harriet Beecher Stowe and Charles Dudley Warner. The Travelers Tower, commanding a view of the Connecticut Valley, is the tallest building in New England (height 527 feet). Aetna Life building is the largest Colonial structure in the world (length 660 feet). The Hartford Courant, oldest newspaper of continuous publication in America, was established in 1764, and the Hartford Times was founded in 1817.

TRINITY COLLEGE CHAPEL

THE TRINITY COLLEGE LIBRARY

Summit Street

The Trinity College Library had its beginnings with the founding of the College in 1823 when its first teachers assembled books from their own libraries for the general use of the College. Today the Library numbers 235,000 volumes and close to 100,000 pamphlets, largely publications of the U. S. government. To these collections has been added the 130,000 volume Watkinson Library (see below) providing Trinity with one of the largest college libraries in the country.

The Library is open on weekdays from 8:30 A.M. to 10:00 P.M., Saturdays from 8:30 A.M. to 5:00 P.M.. and Sundays from 2:00 to 10:00 P.M.

Donald B. Engley, Librarian; George W. Adams, Reference Librarian; Laura B. Schatz, Order Librarian; Elizabeth N. Ives, Catalog Librarian; Marian M. Clarke, Serials Librarian.

The "(see below)" mentioned above refers to text of City Directory.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest: then, a sympathy: then a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful: and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

COUNTY CORONERS AND MEDICAL EXAMINERS

(47) 50 State.

Chapter 14.
Sec. 240—

The judges of the superior court shall appoint for each county, upon the recommendation of the state's attorney for such county, a coroner, who shall be an attorney at law residing in such county, who shall hold his office for the term of three years from the time of his appointment and until another shall be duly appointed in his stead, unless he be sooner removed from office by said judges who may for cause shown so remove him and who may, on the recommendation of the state's attorney for the county, fill any vacancy in the office of coroner.

Sec. 242—

The coroner of each county shall, in writing, under his hand, appoint for each town in the county an able and discreet person, learned in medical science and a resident and taxpayer of such town, to be medical examiner, who shall give a bond in the sum of one thousand dollars to the coroner for the faithful discharge of the duties of his office, and shall hold his office at the pleasure of the coroner. In case there shall be no person residing in any town in such county who possesses the qualifications required by this section and who will accept such appointment, the coroner may appoint a medical examiner for such town who is a resident of an adjoining town. Each such appointment shall be recorded in the records of the superior court in the county where made and, whenever any medical examiner shall be removed, the coroner shall deliver to him a written discharge and file a copy thereof for record with the clerk of the superior court. Upon the request of the first selectman of any town, the warden of any borough or the mayor of any city, the coroner of the county wherein such town, borough or city is situated may appoint an assistant medical examiner who shall possess the qualifications of the medical examiner and shall perform all of the duties of medical examiner during his absence or inability to perform the duties of his office.

Sec. 243—

When any person shall come to a sudden, violent or untimely death and when any person shall be found dead the manner of whose death is not known, any one who shall become aware of such death shall forthwith report the same to the medical examiner for the town in which the dead body lies. Such examiner shall pay the person first reporting such death fifty cents and shall, without delay, view and take charge of the body.

THE METROPOLITAN DISTRICT WATER SUPPLY.

Water Bureau Office, 115 Broad.

William A. D. Wurts, Dist. Mgr.; E. J. McDonough,

Chairman, the District Board; John T. Welles, Chairman; Warren A. Gentner, Deputy Mgr. and and Chief Eng.; Richard Dillon, Registrar.

Under authority of a special act of the General Assembly of the State of Connecticut passed at its January 1929 session, and later approved by the several towns at general elections, the municipal water systems of Hartford, Bloomfield, Windsor, Wethersfield and Newington were consolidated and transferred on July 1. 1930, to the Metropolitan District.

The agencies thus transferred included the Hartford Water Department (Supplying West Hartford), the Bloomfield Center Fire District, the Windsor Fire District, the Wethersfield Fire District, the Wolcott Hill Fire District, the Center Fire District of Newington and the Maple Hill Fire District of Newington.

The water supply system of East Hartford was incorporated into the Metropolitan District system as of Jan. 1, 1941, following acceptance of the town as a member of the District at the 1940 elections.

Admission of the town of Rocky Hill to Metropolitan District membership was approved at the 1942 elections and the Rocky Hill Incorporated District's Water supply system was transferred to the Metropolitan District on January 1, 1943.

Except for the Town of Glastonbury, which is normally supplied from its Coldbrook Reservoir, all water is supplied from the Barkhamsted and Nepaug Reservoirs, with the West Hartford reservoirs as reserve. A brief history follows:

The original water works of the City of Hartford consisted of a pumping station on the west bank of the Connecticut River north of Morgan Street, an intake line extending well out into the river, a supply main running from the pumping station to the Garden Street Reservoir located about 125 feet above the river and 1 ½ miles west of it. Water was distributed by gravity from this reservoir. Surveys for these original works began in October, 1853, construction started in June, 1854, and the first water was pumped from the River into the Garden Street Reservoir on October 23, 1855. This system was used continuously until Jan. 2, 1867, when a supply by gravitation from West Hartford was substituted. The pumping plant on the Connecticut River was held in reserve for emergency for a number of years and was used for short periods of time in 1879, 1880, 1891, 1899 and 1900 when West Hartford Reservoirs were too low to meet the needs of the system. During these periods epidemics of enteric disorders more or less serious were experienced.

The pumping station was finally dismantled and abandoned in 1922 following the sale and removal of the Garden Street Reservoir to the Hartford Fire Insurance Co. in 1921.

The West Hartford Reservoirs superseded the Connecticut River as a source of supply on January 2, 1867. This system was composed of a group of six small reservoirs lying on the eastern slope of Talcott Mountain in the towns of Farmington, West Hartford and Bloomfield. The total capacity of these six reservoirs was about 1.3 billion gallons. Water from all of them was distributed to the city through Reservoir No. 1 on Farmington Avenue. This reservoir, when full at an elevation of 256.5 feet above the Connecticut River, increased the pressure at the Old City Hall by 135 feet over that of the old river works.

Two of the six reservoirs are no longer used for water supply. Reservoir No. 1 is used mainly to run a hydro-electric plant which generates all electricity used in West Hartford reservation including the filter plant. Reservoir No. 4 was transferred in July, 1928, to the Board of Park Commissioners and is now used for park purposes. The remaining four reservoirs have been held as a reserve supply since Nepaug Reservoir water became available.

The Nepaug Reservoir is one of two principal sources for the Metropolitan District's water supply at the present time. Work on this project was begun in 1912 and Nepaug Reservoir water was first used in the city on October 27, 1919, and has been continuously used since 1921.

With a high water elevation of 482.5 feet above sea level, the Nepaug Reservoir floods 851 acres of land and has a capacity of 9,550,000,000 gallons. It has an estimated safe usable yield of about 21,000,000 gallons per day.

Included in the Nepaug project was the construction of the Compensating Reservoir in the towns of New Hartford and Barkhamsted. This reservoir is not a water supply reservoir but was built to compensate mill owners for the loss of water incurred by the diversion of the Nepaug River for public water supply purposes. The reservoir has a total capacity of 3,000,000,000 gallons and covers 437 acres. It is maintained by the water department and operated at the direction of mill owners downstream.

Water is conveyed from the Nepaug Reservoir to West Hartford through a seven and a half mile forty-two inch cast iron pipe line and a 36-inch reinforced concrete pipe line, both terminating in a concrete conduit and tunnel through the Talcott Mountain.

All water is filtered in a slow sand filtration plant composed of 18 filter beds having a total filtering area of about 10 acres. No chemicals are used in this method of purification but the entire filtered supply is chlorinated. Water from the filter plant passes into two clear water storage basins having a combined capacity of 15,000,000 gallons and from these basins it is fed by five supply mains to the distribution system.

The Barkhamsted Reservoir is the second and largest of the two principal sources of water supply. Work on this project was begun in 1933 and regular water supply service was inaugurated in 1949.

The Barkhamsted Reservoir with overflow at 530 feet above mean sea level, has a water surface area of about 2,500 acres and a capacity of about 30,000,000,000 gallons. Its safe usable yield is estimated at 46,000,000 gallons per day.

Water from this reservoir may be delivered directly into the Nepaug Reservoir or to the West Hartford works through connections to the present pipe lines from Nepaug Reservoir.

The West Branch Development Act was passed at the 1949 session of the Connecticut legislature. This act enabled The Metropolitan District to impound the waters of the West Branch of the Farmington River for water supply purposes. As a result the Hogback Dam and Reservoir is presently being constructed in the towns of Colebrook and Hartland.

When completed in a few years, the Hogback Reservoir will have a 6½ billion-gallon capacity, 10 miles of shoreline, cover 560 acres, and approximately double the present usable safe yield of water supply.

A three-mile long tunnel will carry the waters from Hogback Reservoir to Barkhamsted Reservoir.

The sewerage functions of The Metropolitan District are handled by its Bureau of Public Works. At the end of 1956 the bureau maintained 373.77 miles of sewers in the district member towns. Although West Hartford is not a district member town, its sewage is treated by agreement at the district's Hartford sewage treatment plant. Population served by the district's sewer system is estimated at 250,000.

The Hartford sewage treatment plant, located in the South Meadows, near the Connecticut River, began treatment of sewage, May, 1938. Valued at $1,529,000 the plant treats the sewage of Hartford, West Hartford, Windsor, Newington, Bloomfield and Wethersfield.

Construction of the Rocky Hill sewage treatment plant was completed in 1957 at a cost of $308,663. This plant will serve most of Rocky Hill and the southern section of Wethersfield.

In East Hartford the bureau built and operates the Pitkin Street sewage treatment plant. Valued at $1,240,000 the plant has a design population of 40,000.

The bureau maintains several "lift" pumping stations in its sewerage system to augment gravity flow. Three stations, Potter Street, Avon Street, and Fishfry Street, are located in Hartford. In East Hartford is the Woodland district station.

The planning functions of The Metropolitan District are handled by its Commission on Regional Planning. This agency functions primarily as regards water supply and sewerage extensions.

HOUSING AUTHORITY OF THE CITY OF HARTFORD

846 Asylum Avenue

Commissioners—Percival C. Smith, Chairman; Mrs. Mary H. Mahoney, V. Chairman; Thomas R. Bodine Treas.; Cornelia Gross, Asst. Treas.; William Glynn, Asst. Treas.

Functions—

In accordance with enabling legislation provided by the Connecticut General Assembly, the City of Hartford established the Housing Authority as a public corporation in June, 1938, for the purpose of relieving shortages of safe and sanitary dwellings for families of low income, eliminating slum conditions and investigating living and housing conditions. Its area of operation is confined to the City of Hartford.

The program of the Authority has developed along the following lines of activity: (1) The construction and administration of permanent low-rent homes for families of low income; (2) The administration of medium rental dwellings for war workers; (3) Cooperation with municipal, civic and other agencies for the prevention and elimination of unsatisfactory housing conditions in the City of Hartford; (4) The construction and administration of moderate rental housing projects for families of moderate income with preference given to families of veterans and servicemen.

As of Dec. 31, 1958, the Authority had under its management nine completed housing projects as follows:

Name	Number of Dwelling Units
Nelton Court	156
Dutch Point Colony	248
Bellevue Square	501
Charter Oak Terrace	1000
Stowe Village	600
Barbour Street	92
Fred L. Rice Heights	442
Chester Bowles Park	410
Stillman F Westbrook Village	360

Nelton Court, Dutch Point Colony, Bellevue Square, Charter Oak Terrace, Stowe Village, Fred L. Rice Heights, Stillman F. Westbrook Village and Chester Bowles Park are permanent housing. Barbour Street and 26 units at Dutch Point Colony are temporary housing. All of the above listed projects except Fred L. Rice Heights, Stillman F. Westbrook Village and Chester Bowles Park have been constructed under the Federal Housing Program. Fred L. Rice Heights, Stillman F. Westbrook Village and Chester Bowles Park have been constructed under the State Moderate Rental Housing program.

Ninety percent of the development cost of low-income housing has been pledged as a loan to the Housing Authority by the Public Housing Administration, repayable over a period of 60 years. The Authority issued "A" and "B" bonds in a total amount of $4,651,000 on Nelton Court, Dutch Point Colony and Bellevue Square. Financing of Charter Oak Terrace and Stowe Village is by means of permanent bonds in the amount of $11,025,000. Financing of these projects is for a forty year period. The temporary housing for veterans located on Barbour St. and Stonington St. has been transferred to the City of Hartford by the Federal Government effective February 1, 1950, and is under the management of the Authority. Through agreements with the City of Hartford, a payment of 10% of shelter rents is made to the City in lieu of taxes, low-income projects. A yearly payment in lieu of full taxes is made on war housing projects.

On the moderate rental State program the Authority is permitted to pay to the City of Hartford 10% of shelter rents as a payment in lieu of taxes.

The Central Office of the Authority is located at 846 Asylum Avenue, Hartford.

ART MUSEUMS

WADSWORTH ATHENEUM: 25 Atheneum Square No. (3). Tel. Jackson 7-2191. OPEN. Year round, Tuesdays through Fridays, 10:00 a. m. to 5 p. m.; Saturdays, 9 a. m. to 5 p. m. Sundays, 1:30 p. m. to 5:30 p. m.; also Feb. 12, Feb. 22, May 30, Oct. 12, and Nov. 11 from 12 m. to 5 p. m. CLOSED: Mondays, Christmas Day, New Year's Day, Good Friday, July 4, Saturday and Sunday preceding Labor Day, Thanksgiving.

The Wadsworth Atheneum, Hartford's Art Museum, embraces the Colt, Morgan and Avery Memorials and owns the five inter-connected buildings in the square bounded by Main and Prospect Streets and Atheneum Square North and South. It is the oldest public incorporated art museum in the United States and among the fifteen largest. Founded in 1842, it then housed beside the Art Gallery, the Library of the Young Men's Institute (now the Hartford Public Library), the Connecticut Historical Society, and the Watkinson Library, incorporated in 1858. The Hartford Art School occupies quarters in the Avery Memorial Building.

HISTORY OF THE ATHENEUM: In 1841 Daniel Wadsworth offered the lot of land on Main Street on which stood his grandfather's house as a site for a

building to contain a Gallery of Fine Arts, the Hartford Young Men's Institute and the Connecticut Historical Society. The next year the Wadsworth Atheneum was incorporated and money raised. The Gothic Revival building designed by Ithiel Town, which still stands, was begun in 1842 and completed in 1844. Additions to the original building were made in 1864 to house the Watkinson Library and again in 1893. In 1905 Mrs. Elizabeth Jarvis Colt, the widow of Col. Samuel Colt, bequeathed her collection of paintings and other works of art, to the Wadsworth Atheneum with a fund for the construction of a special wing to be known as the Colt Memorial.

The next year Mr. J. Pierpont Morgan announced his intention of erecting a large building as a memorial to his father, Junius Spencer Morgan. The Elizabeth Jarvis Colt wing in Tudor style and the Morgan Memorial, both designed by Benjamin Wistar Morris, were erected in the years 1907-1910. In 1912-1916 the Morgan Memorial was extended to the east, and in 1917 an important part of his magnificent collections was donated to the museum by his son, J. Pierpont Morgan, Jr.

The most modern unit of the Wadsworth Atheneum is the Samuel Putnam Avery Memorial Wing, completed in 1934. Designed by Benjamin Wistar Morris, with the collaboration of A. E. Austin, Jr., it connects with the Morgan Memorial on Prospect Street. The interior uses cantilevered upper walls and open clerestories, and the central court contains the splendid fountain group by Pietro Francavilla made in 1600. The modern Avery Auditorium in the basement, seating 300, is used constantly for theatrical, dance and musical programs, as well as films.

EXHIBITS: 50 galleries containing collections illustrating the arts of Europe and America. J. Pierpont Morgan Collection of Ancient Bronzes, German Silver and famous Meissen and Sevres Porcelain; galleries of Oriental Art; Wallace Nutting Collection of Early American Furniture; Court of European Tapestries and Armor; Collections of the Arts of Pre-Columbian Central and South Americas; George A. Gay Collection of Prints; Collections of European and American Drawings; Diaghilew-Lifar Collection of Ballet Costumes and Stage Designs; Marine Collection; Collection of Religious Arts of the Middle Ages and the Renaissance, gift of The Hartford Foundation for Public Giving; the Ella Gallup Sumner and Mary Catlin Sumner Painting Collection and other collections of European and American Schools from 1400 to the present day.

Officers, Trustees and Staff: Arthur L. Shipman, Jr., Pres.; James L. Goodwin, 1st V. Pres.; John D. Britton, 2d V. Pres.; Spencer Gross, Sec.; Henry T. Kneeland, Asst. Sec.; Allerton C. LIBRARIES

HARTFORD PUBLIC LIBRARY.

500 Main Street, Hartford, Conn.

The Library has had a long association with Hartford's cultural history, having had its start in 1774 when the Hartford Library Company was formed. This was succeeded first by the Hartford Young Men's Institute, founded in 1839, then by the Hartford Library Association in 1878. In May, 1893, the Library became officially the Hartford Public Library as it is called today. In the course of its history the Library has had various homes and it is interesting to note that its first years were spent in the old grammar school on the present site of the Municipal Building. Its longest residence was in the Wadsworth Atheneum where the Library was housed for 114 years, from 1842 until 1956.

In December, 1956, the Public Library moved into its own building at 500 Main St. It was built by the City after the people of Hartford voted a $2,700,000 bond issue in 1951 for its construction. Work on the new building was begun in 1954, and in the fall of 1956 the Library moved into its new quarters. Official opening was on Jan. 2, 1957. Annual election is held on the 2d Tuesday in June. The library now has 356,527 volumes with an annual circulation of 925,604 and a total of 50,652 borrowers.

THE WATKINSON LIBRARY OF REFERENCE.

Trinity College.

Incorporated May 1858, was endowed by its founder, David Watkinson "for the purpose of establishing in connection with the Connecticut Historical Society a Library of Reference to be accessible . . . to all citizens and other residents and visitors in the State of Connecticut." The collection of approximately 130,000 books and pamphlets offers material on a widely diversified range of subjects. The Library is open to the public for reference from 8:30 a.m. to 12 m. and 1 p.m. to 4:30 p.m. daily excepting Sundays, Saturdays and Holidays.

Trustees, Newton C. Brainard, Lyman B. Brainerd, Dr. Jerome P. Webster, Allerton C. Hickmott, James L. Goodwin, Karl W. Hallden, H. Bacon Collamore, Lawrence A. Howard, Francis W. Cole, Wilmarth S. Lewis, Lucius F. Robinson, Jr., John C. Parsons, James T. Babb, Dr. Arthur Adams, the Governor of Connecticut, President of the Connecticut Historical Society, President of the Wadsworth Atheneum, President of the Hartford Public Library, President of Trinity College; Librarian, Ruth A. Kerr.

CONNECTICUT HISTORICAL SOCIETY

Located at 1 Elizabeth Street. The Society was incorporated in 1825 "for the purpose of discovering, procuring and preserving whatever may relate to the civil, ecclesiastical and natural history of Connecticut." The library contains about 60,000 volumes, 100,000 pamphlets, 5,000 volumes of bound newspapers and 4,000 manuscript collections of varied historical importance. Among the outstanding features are a collection of more than 3,000 printed genealogies covering some 1,700 family names, 10,000 genealogical manuscripts and approximately 3,500 town histories, not only of Connecticut and New England but of many other regions as well. Correspondence of Connecticut's colonial governors, papers, account books and diaries form a primary source for the study of Connecticut history. The Society possesses the most complete collection in existence of early Connecticut imprints and also a splendid collection of early Connecticut newspapers. Among the treasures in the museum are a remaining portion of the Connecticut Charter of 1662, a chair made from the Charter Oak, Mark Twain's bicycle and many interesting Revolutionary and Civil War relics.

The library is open to the public for reference from 9:30 to 5:30 daily except Sundays and Holidays. The museum is open on those days from 1:00 to 5.00. During June, July and August the building closes at 12 noon on Saturdays. Annual Meeting 3d Tues. in May.

COLLEGES

UNIVERSITY OF HARTFORD

The University of Hartford began operations on September 1, 1957, as an independent coeducational, nonsectarian, and gift-supported institution of higher learning. Its three founding institutions, Hartford Art School, Hartt College of Music, and Hillyer College, have combined enrollments of nearly 7,000 students.

A 150-acre tract of land on Bloomfield Avenue, acquired by Hillyer College in 1955, is under development as the future University campus. Pending erection of new buildings there, the University's broad educational programs will be continued in their present locations.

Degrees and honors earned in its variously accredited schools and colleges are awarded by the University of Hartford under authority contained in its charter, which was granted by the General Assembly of the State of Connecticut in February, 1957.

HARTFORD ART SCHOOL

The Hartford Art School has its origins in the Art Society of Hartford. Founded in 1877, the Society's earliest minutes state that its purpose was "to help the movement toward Art Education . . . that instruction by superior teachers was needed . . . to learn, first, what good work is, and second, how to do it . . . " Under the guidance of succeeding generations of the far-sighted and public-spirited citizens of Hartford who have served as its Trustees, the School has pursued those original principles, broadening its educational purposes so that its students may be prepared for leadership in the field of the visual arts.

In 1949, the Connecticut State Board of Education licensed the School as an accredited institution, with the right "to confer such degrees as are customary in fine arts institutions." The Trustees have accepted the responsibilities incurred by this privilege and have been ever-alert to their task of providing students a rich educational experience under the most stimulating conditions.

The School is uniquely equipped to effect such an educational program: its faculty are experienced teachers, each distinguished for their professional accomplishments in their respective fields; classes are small enough to permit carefully considered individual criticisms yet offer stimulating group experience; housed in the group of buildings belonging to the Wadsworth Atheneum Museum, the School's modern studios in the Museum's Avery Wing are ideal for the instruction of basic courses. In the adjoining Watkinson Building are the School's large studios for advanced painting and graphics, for sculpture, advertising art and teacher education.

The Day School curriculum is planned to extend over a period of time sufficient to develop the creative and technical abilities of the student so that he may, upon graduation, meet the highest professional standards. With this in mind, the courses have been organized in the practice and theory of the visual arts to develop the highest proficiency of the student's skills and creative powers, as well as to provide a background in the liberal arts.

Evening classes are offered for those whose other activities do not permit them to avail themselves of subjects taugh in the Day School. A variety of subjects is offered and classes are conducted by instructors of the regular School faculty. Students in the Evening Classes benefit from the same high standards of accomplishment and individualized instruction as do Day School students. The atmosphere, however, is at all times informal, and classes are kept to a size to insure each student the maximum of individual attention.

The Hartford Art School is accredited by the Connecticut State Board of Education, and is empowered by the State of Connecticut to confer the degrees of Bachelor of Fine Arts, and Bachelor of Science in Art Education.

HARTT COLLEGE OF MUSIC

The Julius Hartt Musical Foundation and its divisions, Hartt College of Music and the Julius Hartt School of Music, originated from the founding of the Julius Hartt School of Music in 1920. The School itself was an outgrowth of an association of teachers formed some years earlier by Julius Hartt, master musician and educator, and several of his students.

A modest residence on Collins Street served as the School's first home. While its accommodations were adequate to serve its one hundred students plus any expected increase in enrollment, the inauguration of a College Department in 1927 and a rapid growth in reputation forecast the need for larger quarters.

During the next few years, the needs of the growing School attracted the attention of a group of public-spirited citizens who, in 1934, formed the Hartford Musical Foundation, a non-profit corporation, which assumed the ownership and operation of the School of Music. The name, Julius Hartt Musical Foundation, was adopted following the retirement of Julius Hartt in 1936.

Steady increase in enrollment and expansion of curricula soon overtaxed seriously the capacity of the original building. Many of the choral and orchestral activities, as well as recitals and lectures, had to be carried on in auditoriums in the community, while much individual instruction was transferred to homes of faculty members and other temporary locations. The purchase and remodeling of the present buildings on Broad Street in 1938 enabled the full school program to be assembled in an ideal location. Further improvements in 1940 and again in 1946 increased student capacity to 1300 in the various departments designated as Junior, Adult and College.

In 1951, the name of the College Department was changed to Hartt College of Music. The Julius Hartt School of Music continues the work of the non-collegiate Junior and Adult Divisions.

In 1956, Hartt College of Music joined with the Hartford Art School and Hillyer College as the University of Hartford. In September, 1957, the three colleges began to function as units of the University. Hartt College of Music of the University of Hartford will retain its charter, faculty, staff, buildings and equipment, and academic program.

The College is situated at 187 Broad Street, near the center of the city, and is within five minutes' walking distance of the railroad station. It is easily reached by bus from every part of the city and its environs.

The College is housed in three connecting buildings whose accommodations include the Main Auditorium seating 500 persons; the Music Room, a recital hall seating 150 persons; classrooms, studios, offices and lounges.

Hartt College is a member of the National Association of Schools of Music and of the New England Association of Colleges and Secondary Schools. The College is approved for the training of veterans. Undergraduate and graduate courses of study and the following degrees are accredited by the Connecticut State Board of Education: Bachelor of Music, Bachelor of Music Education, Master of Music, Master of Music Education.

HILLYER COLLEGE

Hillyer College was founded in 1879. Its first endowment came from Appleton and Clara R. Hillyer, son and daughter of General Charles T. Hillyer, in whose memory the institution was named.

The Junior College was chartered by the Connecticut General Assembly in 1937 and the Senior College in 1947. The Graduate Division of Education was organized in 1950.

In 1951, the generosity of Mr. and Mrs. S. I. Ward made possible the establishment of the Ward School of Electronics as the technical institute of Hillyer College, devoted to the preparation of electronic technicians.

The University of Hartford began its operation officially with the opening of the academic year in September, 1957. Within the University organization, Hillyer will retain its separate charter, faculty, staff, curriculum, buildings, equipment, library, endowment, and academic program. All degrees, certificates or honors earned after September 1957 will, however be awarded by the University of Hartford.

The Day Division of the College is concerned primarily with the educational needs of full-time students. Programs of study which lead to Associate and Bachelor's degrees are offered. Co-curricular activities include sports, publications, debate, music, dramatics and special interest groups.

The educational offerings of the Day Division are closely integrated with those of the University Evening College and are under the same academic administration. This makes available to full-time students a wide variety of courses in the field of their special interest.

The Evening Division work of Hillyer College is administered by the University Evening College, the program of which embraces the curricula of all three of the institutional members of the University. Qualified students in the University Evening College may work for an Associate or Bachelor's degree or may elect programs leading to certificates in several fields of specialization. They may also elect a single course or a combination of courses without the necessity of following a prescribed program leading to a degree.

Hillyer College offers graduate study leading to the degree of Master of Education. A sixth-year program, leading to the Certificate of Advanced Graduate Study is also available to selected students. Graduate work is limited to students having superior academic background and successful professional teaching experience.

The buildings used by the College are centrally located and readily accessible. Hillyer's main building at 315 Hudson Street is three blocks from the Connecticut Capitol. The Engineering, Science and Research Center is located at Huyshope Avenue and Sequassen Street. The College also maintains a building at 44 Niles Street. This building is used exclusively by the Ward School of Electronics, the technical institute division of Hillyer College.

The University Evening College holds classes at the Hudson Street buildings; at Bulkeley High School on Maple Avenue; the Hartford Hospital School of Nursing on Jefferson Street, and the Engineering, Science and Research Center building. The Graduate Division holds classes in the Hudson Street building and also in other Connecticut communities.

Hillyer College is fully accredited by the Connecticut State Department of Education and the New England Association of Colleges and Secondary Schools, and is a member of the American Association of Colleges, the American Council on Education, the Association of Urban Universities, and The Connecticut Council on Higher Education. The College has been approved for pre-law study by the Connecticut State Bar Examining Committee and as a teacher training institution by the Connecticut State Department of Education.

PARKS

There are over 1,353 acres under control of the Park Commissioners.

BUSHNELL PARK.

Was laid out in 1853. contains 41.27 acres, bounded northerly by Asylum st., Ford st., and Jewell st.; easterly by Wells st.; southerly by Elm st. and the Capitol Grounds and westerly by the State Armory Grounds.

The Common Council at a regular meeting held Feb. 14th, 1876 Resolved, That the public park now commonly called "The Park," be and hereby is named "Bushnell Park."

June 17th, 1874, a Bronze Statue of Gen. Israel Putnam was erected with a pedestal of Quincy granite presented by the late J. P. Allyn.

July 22, 1875, a Bronze Statue of Dr. Horace Wells, the discoverer of Anaesthesia, in September, 1844, was erected.

In 1884 the Soldiers Memorial Arch was erected at the south end of Ford st. on Bushnell Park.

In 1899 the beautiful Corning Fountain with Indian figures was presented to the City of Hartford by John J. Corning of New York in memory of his father.

Bridge at the foot of Trumbull Street has been taken down and has been replaced by the Fox Memorial Entrance.

The Hoadley Memorial Bridge was demolished after the diversion of the river and has been replaced by the Hoadley Memorial Entrance.

In 1943 the park river was diverted from the park into a large conduit as part of the flood prevention work.

ELIZABETH PARK.

915 Prospect avenue has 90 acres, the gift of Charles M. Pond in 1895. This is the garden park of the City, the celebrated rose garden is claimed to be the most beautiful Municipal Rose garden in the country; ball diamond, picnic groves, playgrounds, bowling greens and curling pond. Mr. Pond left $100,000 for its development.

POPE PARK.

Colonel Albert A. Pope gave in 1895 some 79.05 acres of land in the southwestern section of the city, on Capitol avenue, Laurel and Park streets, and Park Terrace. It is in the manufacturing district and has children's out-door gymnasium, baseball diamonds, lakelets and a children's playground and refectory and swimming pool.

KENEY PARK.

The gift of Henry Keney. 694 acres, is bordered by Main street formerly Windsor avenue on the east, by Ridgefield street on the west, and on the northwest by Holcomb street. Tower avenue, Vine Street and Love lane pass through it, and Barbour street, Waverly avenue. Harper street and Woodland street extension connect with it. Playgrounds, refectories, golf course, picnic groves, skating pond.

RIVERSIDE PARK.

Has 80 acres, was bought by the commissioners in 1896, in the eastern section of the city, on the river front, between the East Hartford bridge and the N. Y. N. H. & H. Railroad bridge. It has groves, playground and swimming pool.

A dike was constructed on the west side of the park in 1941 to prevent flooding Hartford's east side.

COLT PARK.

Has 114 acres, the gift of Mrs. E. H. Colt, extending between Wethersfield av. and the Connecticut River, is the great playground of the City. It has a memorial statue of Colonel Samuel Colt, the inventor of the Colt revolver. It has a bowling green, lawn tennis courts, ball diamonds and a one-quarter-mile running track, a refectory and swimming pool.

In 1916 a gift of land was presented by Charles E. Gross.

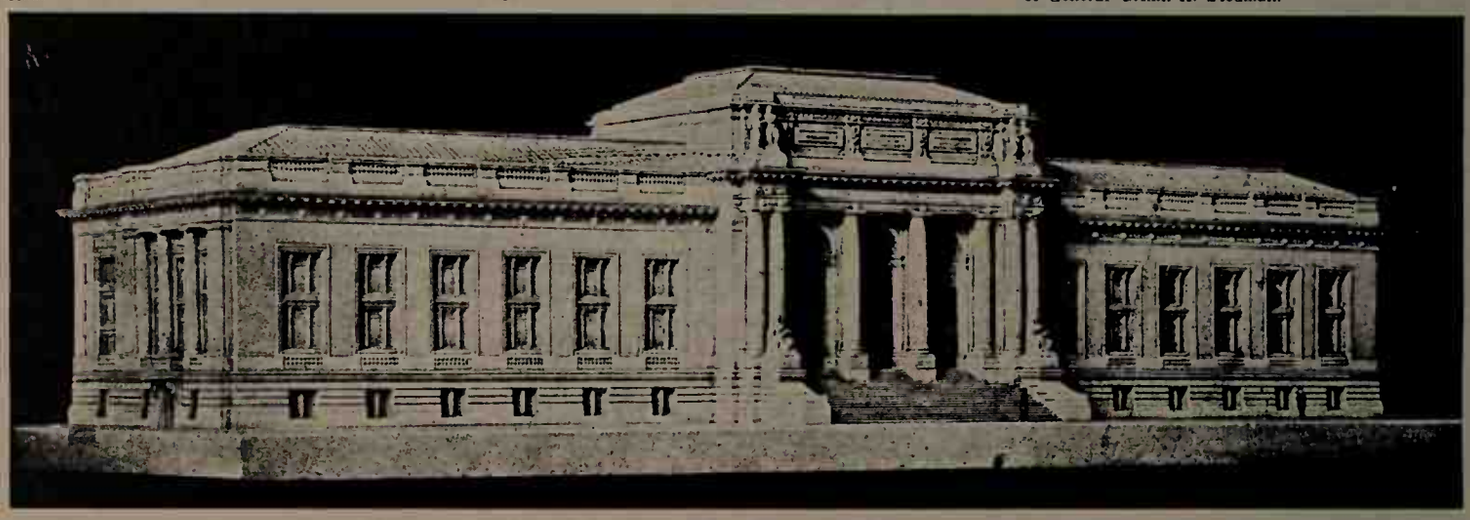
GOODWIN PARK.

Has 237 acres and was acquired by purchase. It extends from South street to Jordan lane, and from Maple avenue to Hubbard Road. It is a country park at the extreme end of the City, and one entrance opposite Cedar Hill, with splendid driveways, magnificant groves and beautiful lakes and 2 golf courses, one 9 and one 18 holes and a house with baths, lockers, etc., and a refectory. Also a playground.

ANCIENT CEMETERY.

Located on Gold street, rear of the Center Church, has an area of 1½ acres. A brown stone monument with names of first settlers of Hartford. It was reclaimed with the widening of Gold street, and fenced in 1900. In 1951 a small plot on Main street was given to the city and the Day Memorial Gates were moved there.

BARNARD PARK.



Has 1¾ acres. Junction of Main, Park, Jefferson, Congress and Wyllys streets, Wethersfield and Maple avenues, and South Park place. In 1898 named Barnard Park in honor of Henry Barnard, the educator. From the beginning of the City it has been public grounds, formerly used as a circus ground and for military parades.

BUCKINGHAM SQUARE.

Has ⅓ acre on Buckingham, north side, between Main and Whitman streets, laid out in 1890.

CAMPFIELD MEMORIAL GROUNDS.

Has ⅓ of an acre, was acquired by the Grand Army in 1899 to mark the spot of the camping of the Connecticut troops during the Civil War. It has a statue of General Griffin A. Stedman.

CONNECTICUT STATE LIBRARY AND SUPREME COURT BUILDING. Corner stone laid May 25, 1909.
231 Capitol Avenue, Hartford.
State Librarian, James Brewster.

Is of granite an adaptation of the Italian renaissance style of architecture; fireproof throughout, and is a companion building to our beautiful Capitol just across the lawn. It is T shaped with a frontage of 294 ft. 8 in. on Capitol av. and a north to south depth of 137 ft. 6 in. The east and west wings of the T are each 106 ft. 8 in. long and 84 ft. 3 in. wide. The stem of the T or south wing is 60 ft. wide and 76 ft. 6 in. long. The main entrance has been placed 90 ft. back from the curb; entrances are also on ground floor at east and west ends.

The building is divided into three main floors, with a basement under central portion which accommodates the entire heating and ventilating machinery. The boilers for heating are located in a separate building. The ground floor is on level of the street curb. The main floor upon which is located the main reading room of the State Library, Memorial Hall, and Supreme Court Room is fourteen feet above the ground floor and is reached from Capitol av. by granite steps; this is a large room with barrel vaulted ceiling which is carried by massive columns and pilasters executed in marble of buff color. Located at the east end of this central hall and opening from it, is the main reading room of the State Library; on the west end is the Supreme Court Room and its several departments, while adjoining on the south opposite the main entrance is the Memorial Hall; provision has been made in this hall for portraits of the Governors, Stuart's portrait of Washington, and display of the Old Charter; it occupies the stem of the T and is 51 ft. wide, 85 ft. long and 35 ft. high, amply lighted by means of an artistic skylight.

The Supreme Court room, 43 ft. wide, 56 ft. long and 35 ft. high, is conveniently located with reference to the offices of the several officers of the court and the studies of the several associate justices, all of which are provided with the most modern equipment.

The Library Reading room located in the east wing is 43 ft. wide, 90 ft. long and 35 ft. high and lighted by six large windows facing north. Along the south side of this room is placed a three-story steel stack with open shelves for the law library and general works of reference. The balance of the floor is occupied by the special study and reference tables and catalogue cases. Located near this main reading room is the librarian's office, the main stack room, the study rooms, vaults for archives, records, valuable papers and collections, the newspaper rooms for cataloguing, repairing, packing and photostating. Bindery is in separate building at 30 Oak St.

The building is equipped with three automatic passenger and service elevators. The large number of gifts of special collections already received from individuals and societies are evidences that the facilities offered are appreciated.

The site cost about	$175,000
The building, completed and furnished, about	1,200,000
Total cost, approximately	$1,375,000

Commission was

Morgan G. Bulkeley, Hartford; H. Wales Lines, Meriden; W. O. Burr, Hartford; Charles C. Cook, West Hartford; L. W. Robinson, New Haven; Thos. D. Bradstreet, ex-officio, Thomaston.

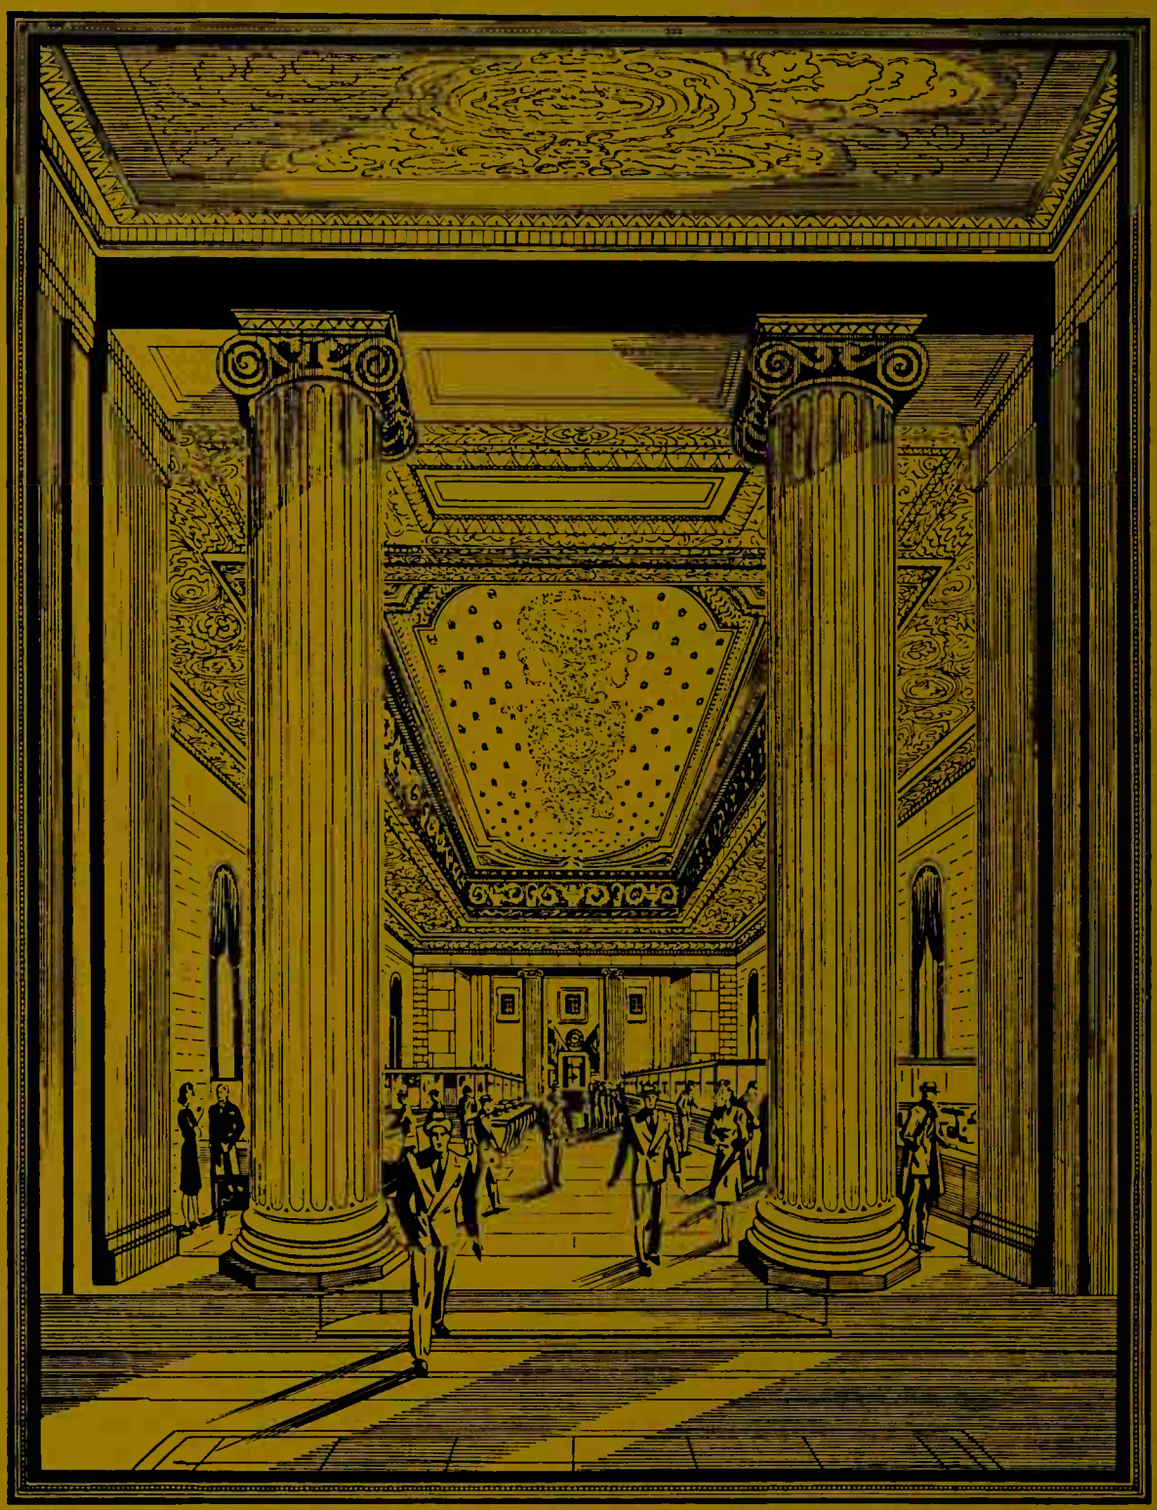
I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.



With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

THE OLD "SQUARE RIG" DAY'S ARE GONE!

The old square rig days meant proper trimming of sails and the correct tack—otherwise disaster. Get rid of your "square rig" advertising—try the Directory—referred to by thousands, your ad will stay on its course.

Watkins for music . . .

241 ASYLUM STREET • HARTFORD • JA 2-7201

Whether your mood calls for relaxation or inspiration there's one sure way to fulfill it . . . music you create yourself on the piano or organ. And those who want instruments that will express their moods best, choose them at Watkins. For here are assembled the world's finest, headed by the immortal Steinway and Hammond Organ, and including such worthy companions as Knabe, Steck, Everett, Cable-Nelson, and the Hammond Chord Organ. You can own the best instrument, no matter what your budget calls for, and on convenient terms, if you choose it at Watkins . . . the oldest Steinway agency in the world!

Watkins for furniture . . .

935 MAIN STREET • MANCHESTER • MI 3-5171

Visitors to Watkins of Manchester often comment on the difference in the home furnishings shown here . . . an absence of the freakish . . and a wider choice of beautiful, sound, practical designs. That's been Watkins' policy for 85 years . . ."Offer only those things we believe to be beautiful, or know to be useful". So when you require home furnishings in good taste, at prices to fit most any budget, may we invite you to Watkins? You'll see more famous brands under one roof than you've probably ever seen before. Plenty of easy parking (two acres of it at our rear entrance) and it's free. Open Thursday and Friday nights; closed all day Mondays.

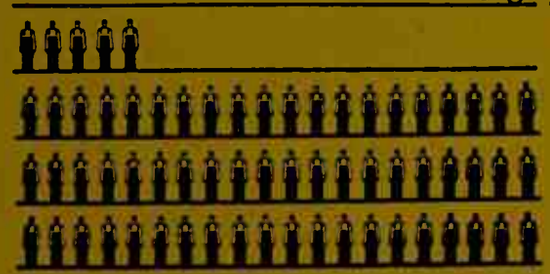
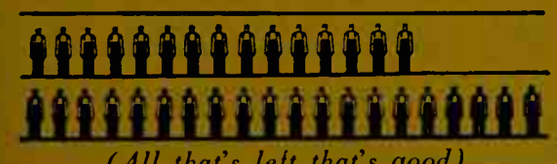
HOW MANY CHANGES IN A YEAR?



Out of every **100** People as listed in the last Directory



16% to **18%** Move away or die

17% to **19%** "New" people move into town or reach listing age.

(All that's left that's good)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

HOME OFFICE — THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY
140 GARDEN STREET, HARTFORD

A Good Company for You

HIGH RETURN TO BENEFICIARIES . . . 3.6% interest being paid on income settlement funds.

LOW COST TO POLICYHOLDERS . . . A liberal dividend scale—increased ten times since 1943 — gives both old and new policyholders low cost life insurance.

GREAT FINANCIAL STRENGTH . . . Assets are diversified among thousands of choice investments which have been selected first for security, then for yield. Assets now total over $1 billion.

PUBLIC ACCEPTANCE . . . Total life insurance in force now exceeds $4,000,000,000.

WIDE RANGE OF PLANS . Ages 0-70; broad limits to $1,000,000.

A CENTURY OF SERVICE . . . The Connecticut Mutual, first life insurance company established in Connecticut, has successfully weathered wars, epidemics and panics since 1846.

NATIONWIDE SERVICE . . . Field Offices from coast to coast.

I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

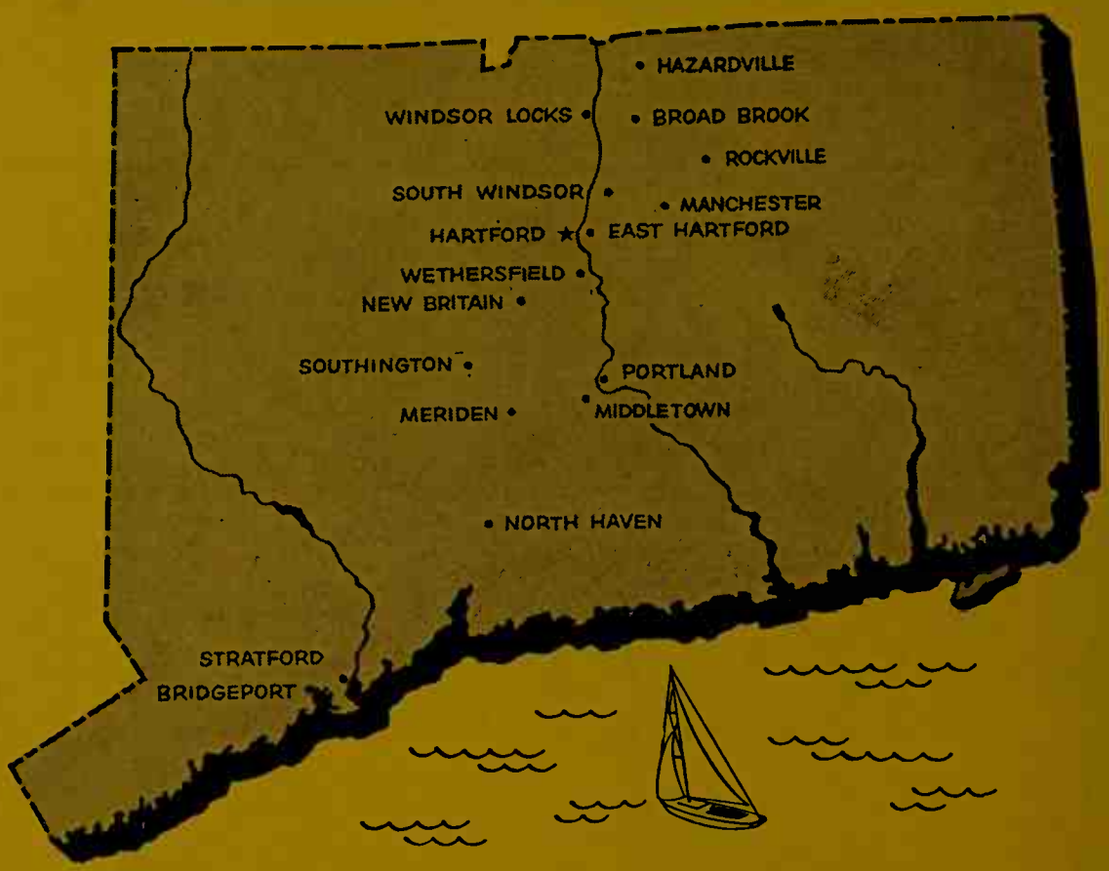
Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

I Am Your City Directory

MANUFACTURING DEPARTMENT



HARTFORD

and its environs with its diversified manufactured products is the most active center of Industrial New England.

The following pages are descriptive and catalogue these products, after which this information is available and utilized by commercial and business bureaus throughout the country.

The PRICE & LEE Co.

106 ANN STREET

CONNECTICUT... HOME OF YANKEE CRAFTSMANSHIP

For many generations, Connecticut's precision metal workers have known the satisfaction of doing a job conscientiously. Led by such industrial pioneers as Samuel Colt and Eli Whitney, Connecticut craftsmen have taken pride in knowing that their products are of the highest quality.

United Aircraft Corporation was founded in Connecticut to take advantage of these traditions. Today, as the largest employer in Connecticut, the corporation gives work to about 60,000 people at facilities in 17 Connecticut communities, shown above. Many millions of dollars go to subcontractors, vendors, and suppliers within the state. In 1956, United Aircraft spent $25 million on new production and experimental facilities and equipment in Connecticut.

The whole world of aviation, both commercial and military, reflects the outstanding contributions made by products of United Aircraft Corporation. Pratt & Whitney Aircraft engines power most important modern Air Force, Navy, and commercial aircraft. Hamilton Standard propellers are found on 90% of the world's commercial airliners, and more than 40 types of turbine-powered aircraft are equipped with Hamilton Standard products. Versatile Sikorsky helicopters are earning their way in business and industry, are performing countless vital jobs for the armed forces, and are used on all scheduled passenger helicopter flights in America and Europe.

Today, United Aircraft Corporation is developing new products which may influence the whole future of aviation. In whatever form the future takes . . . new types of aircraft propulsion, modern propellers, turbine-powered aircraft equipment, and advanced helicopters . . . United Aircraft Corporation will be ready to offer continued leadership.

A HARTFORD institution from its inception, "Spencer" has been nationally known for more than 60 years.

Spencer Vacuum Cleaning is the accepted standard for schools, hotels, offices, stores, theatres, industrial plants and homes.

Spencer Turbo-compressors are recommended by practically all the leading manufacturers of oil and gas-fired equipment.

Spencer Tube-Vacs are the motive power for pneumatic tube systems in banks, hotels and department stores. Spencer Orgoblos furnish the wind power for the great majority of organs in churches, and the Spencer Drill-Vac, collects dust from rock drills in construction, quarry and mining operations.

Have You a Message for Men?

Let the CITY DIRECTORY carry it home. Enlighten the public as to who you are, where you are and what you have to sell. The City Directory will keep your name before the public all the year 'round. Our copy writers will animate your advertising. And no man well supplied with mental gravity will differ from this: Perpetual Publicity Plus Personality Produces Patronage.

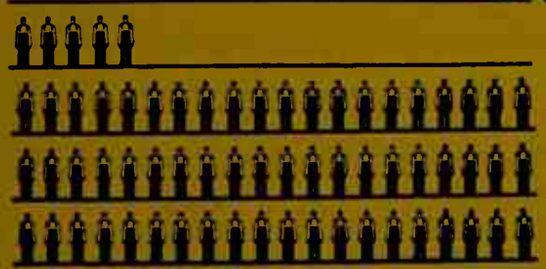
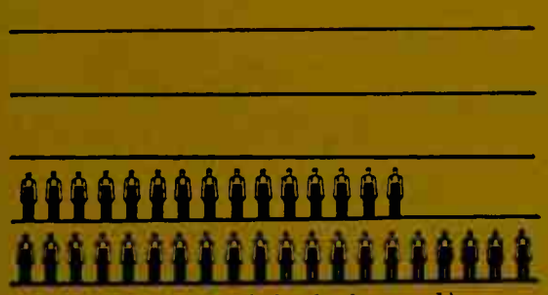
HOW MANY CHANGES IN A YEAR?



Out of every **100** People as listed in the last Directory



16% to **18%** Move away or die

17% to **19%** "New" people move into town or reach listing age.

(All that's left that's good)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

Industry-Manufacturers

What can we do for You?

I am Not the BOSS ! ! but my part with my fellow employees has made Industrial Welding Work the high quality that it is.

WELDING AND METAL FABRICATION IS OUR BUSINESS

ASSEMBLY WELDING

Welding of sheet metal or cast parts to form one piece unit, the parts being furnished by either the manufacturer or ourselves. Inert Gas Arc Welding — for Quality work on Aluminum, Stainless Steel, Brass, Copper, etc.

CONTRACT MANUFACTURING

ALMOST ANYTHING IN METAL FABRICATION ON A CUSTOM BASIS

The manufacture of products, from blue print to finished product, according to specifications furnished by the customer or with the co-operation of our engineering dept.

FLAME CUTTING—SHEARING, FORMING and ROLLING of stainless and carbon steel. Multiple torch cutting of any usual size, shape or quantity.

FACILITIES AVAILABLE

8-foot power shear, 200-ton power brake, power rolls of various sizes and angle iron rolls.

ENGINEERING SERVICE

The Industrial Welding Co. is staffed with personnel skillfully trained in practical and up-to-date techniques on welded construction. We have over ten thousand square feet of floor space with overhead cranes and trolleys which enables us to handle exceptionally heavy work. Our MODERN EQUIPMENT and complete MACHINE SHOP are available to prepare any part, large or small, for welding or brazing.

We also specialize in the manufacture of Aircraft Engine Test Equipment

Advertising—that is perpetual in mediums that have a permanent value.

Advertising—that protects and supplements all other forms of advertising that create desire.

Advertising—that directs the buyer when the need is imperative after the desire has been created.

Advertising—that by its permanence establishes confidence and stability.

Advertising—by which tomorrow's success is built on today's action.

The City Directory

is the most effective and economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The *Classified Lists* in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want, when you want it.

ELECTRICITY DOES SO MUCH FOR SO LITTLE

THE SHORTEST DISTANCE BETWEEN
TWO POINTS IS
A STRAIGHT LINE

Your City Directory is the Straight Line medium to bring Your Merchandise and Your Services direct to the buyer.

• • •

There is no running around in circles before finding the commodity or service the buyer wants to purchase.

• • •

The Buyers Guide and the detailed listings in your City Directory form the STRAIGHT LINE to your needs.
